Table 3: Quality Assessment

Criteria	Checklist
Methodology	Q1: Does the paper have a description of the research method?
Purpose	Q2: Does the paper describe an explicit research question/goal/purpose?
Motivation	Q3: Was the motivation for the research question(s) described?
Technology Definition	Q4: If the study involves assessment of a technology, is the technology clearly defined?
Limitations	Q5: Does the paper discuss limitations or validity?
Data Collection	Q6: Is data collection described in the paper?
Data Analysis	Q7: Is data analysis described in the paper?
Sampling	Q8: Does the paper describe sampling or selection of the study object(s)?
Sampling Justification	Q9: Was the sample size justified?
Completeness	Q10: Are all study questions answered?
